### *Hello fellow MRFA members:*

Old man winter has released his grip, at least for a while. Yes that means that fuel has been burned! How about you? Everything at the field appears to have made it through the winter without damage. The parking lot has sunken a bit more, so we will have to take a look at what plan of action we may need to take. Plus we will have a couple of additional loads of dirt coming soon (free of charge).

If any of you have looked at the web site to see the "What's New" button you found updates on the MRFA build night. The project is rolling along. It has been nice to see friends again and good to know that we are working on something positive for the club.

Last month you voted in favor of the Friends of Flight idea. Bob V and myself attended another meeting of the founding clubs and they are all STOKED! Another club has joined into the test venture with us for a grand total of 4 clubs now. This has opened the communication between clubs and we are looking forward to visiting them and they are looking forward to visiting us. If you want to see more about this please click on the Friends of Flight button on the web site. We will have more info at the meeting for you.

Another reminder that Toledo is next month! Yes April 2-3-4 is it! Gather up your rides. For those never attending... don't miss this one, it is worth the drive.

The club will be posting it rules at the field for the up coming season. Another issue that has been talked about is providing each member with a few "ID Stickers" to put inside of your plane. AMA regulations call for this and we want to enforce it this season more than we have in the past. Take a tally and see how many you need and report to us at the meeting.

**Dues should be paid by this meeting.** I want to also remind **everyone** that you should be submitting a new application along with your dues to insure that all of our records are current. PLEASE RETURN YOUR OLD FIELD KEY, new ones will be handed out at this meeting! The lock will be changed next week.

Dave

***NEXT MEETING: Sun. Mar .7 th 6pm  
Fiesta Tropical Restaurant 1629 E. Rt. 29***

## **MRFA SWAP SHOP**

Want to list your items? Email [charlies@ctcn.net](mailto:charlies@ctcn.net) before deadline on 20<sup>th</sup> of each month for the following issue.

### **I have several planes I need to sell says Mike Bell...**

Sig 4 star 40. OS 46 FX. JR 517 servos. RTF with RX/battery \$225

Sig Fazor. All servos, tank and hardware. RTF with motor/RX/battery \$95

Morris Top Cap. Morris .53 with tuned pipe (HOT). Has servos. RTF with RX and battery. \$175

Jerry's big boy with modified rudder and elevators. (Modified to spoiler specs) Airframe and hardware only. \$225

Jerry's big boy. Tail feathers have been removed in preparation for same modification on above Big boy. Airframe and hardware only. \$125

Aeroworks freedom 3D. Wing bags and hardware. This plane is no longer made. .60 -.90 motor and electronics not included. \$180

All above planes are in good to very good condition. All are truly 3D capable except the 4 star which is still very aerobatic. Never opened Aeroworks freedom 3D kit. No longer made. Sell for original price. Shipping invoice still on box. \$180

Ohio Model Planes 80" Edge profile. Fuse framed and remainder of kit in box with plans. \$150. (\$40 less than kit price with much of the work done)

35% Giles with low time ZDZ 80, Smoke muffler and Harris smoke system. Wing bags. Carbon fiber spinner. Modified Lanier kit. Nice plane! Will sell all up minus RX for \$2000 or without electronics for \$1500.

2 low time Webra speed 1.20's with tuned pipes \$175 each

Hitec quick charger. #335 I think. Will charge many different packs and at many different rates. Works great but I went to a super nova. \$40

I need to clear out some stuff folks.
